

tinplateoutlookservice

market research · price outlook · buying strategies

**An essential resource for tinplate
& steel packaging buyers**

www.tinplateoutlook.com

**Optimizing Tinplate costs
is essential to be competitive
in the packaging industry.**

Our Tinplate Outlook Service provides tinplate and steel packaging buyers with strategic information so they can better plan and optimize their buying around the world.

Our service offers:

- Knowledge of tinplate price levels around the world.
- Tinplate price forecast and buying recommendations.
- Deep analysis of the key drivers behind current and forecasted tinplate price levels.
- Forecasts for key tinplate market statistics for the main regions of the world (consumption, production, imports and exports).
- The most important news on tinplate around the world.
- An impartial source that explains how and why global tinplate prices are moving.

Our Tinsplate **Outlook** Service is **provided** through:

Tinplate Outlook Report (Quarterly): This report helps buyers know the tinplate price levels around the world and provides tinplate forecast and buying recommendations. It also provides deep analysis of the key drivers behind current and forecasted tinplate price levels. This report also includes tinplate forecasts for key tinplate market statistics for the main regions of the world (consumption, production, imports and exports), as well as the most important news on tinplate around the world.

Tinplate Price Report (Monthly): Actualizes tinplate price levels in the main regions of the world.

Tinplate Export Monitor (Semestral): This report shows how much and at what price the main tinplate producing countries are exporting tinplate to the different regions of the world.

Flash News (occasional): We send an e-mail including important breaking news or information regarding the tinplate industry or tinplate price perspective.

Continual assistance: You may call our analyst to further comment or discuss any subject on our reports.

Market intelligence that optimizes your tinplate and steel packaging buying.

HARBOR's way

All of our publications have a straight-to-the-point, bottom-line and concise approach. We want our clients to have the best reading experience.

Independent Analysis

We have no created interests. We are not a market participant, brokerage house or a supplier. Our best interest is for our clients to benefit from optimal decision taking.

Specialization

At HARBOR Intelligence, tinplate market analysis and price outlook is our specialty.

Our clients

We serve small, medium and large companies that buy tinplate and steel packaging in practically all regions of the world included: Europe, USA, Asia, Middle East, Latin America among others.
